

Mission: *Friends of the Children-Boston was founded in 2004 with a mission to impact generational change by empowering youth who are facing the greatest obstacles through relationships with professional mentors – 12+ years, no matter what.*

Organization: Friends of the Children was built around a simple solution: enter their lives early, provide them with a dedicated, caring adult and stay by their side, no matter what. At *Friends-Boston*, we pro-actively identify kindergartners facing the toughest challenges and the most significant barriers to future success, but who we believe possess untapped limitless potential. We then relentlessly dedicate our resources to them by providing a paid professional mentor (Friend) for their entire school aged years – kindergarten *through graduation, no matter what*. We call the children we serve “Achievers” to demonstrate our belief in their potential to succeed, just as we call our professional mentors "Friends" because they are forming meaningful relationships with our youth. *Friends-Boston's* long-term goal is that Achievers will graduate from high school and succeed in college.

Are you looking to make a difference in the lives of children who need it most?
